

Bittersweet

James Taylor

No I don't know how to love you
The way you want me to
Coz everytime I try
Something always changes with you
First it's cold baby
And then there's too much heat
One minute I'm up in heaven
And the next I'm down in the street

Coz we got a love
That's bittersweet
I said we got a love
It's bittersweet

Sometimes when I'm with you
It's like you're just not there
When I look into your eyes
I see that thousand yard stare
Then you're back in love with me
Like you can't get enough
Rough into smooth
And the smooth back into the rough

Ohhhh help me now
We got a love
That's bittersweet
We got a love, oh darlin'
That's bittersweet

I don't know anybody
Anybody like you
I never met anybody
Could make me feel the way you do
I wish that I could love you
The way you want me to
So scared you'll pull out the rug
Darling if I do

It's cold it's cold
And now there's too much heat
One minute I'm up in heaven
And the next, I'm walking the street

We got a love
That's bittersweet
You know we got a love
That's bittersweet
We got a love
That's bittersweet
You know, we got a love, oh darlin'
That's bittersweet.

Flamin' hot
Then not.
Ooooooooh, bitter memory
I said we got a love, oooh,
Tiskeno z písničky-akordy.cz
We got a love.
