

Catch A Buzz

Taylor Ray Holbrook

Yeah we riding high tonight
Dust up in them headlights
Got'er hooked on this good life
And babys lookin oh so fine
Soundin like thunder when we lose control
Done worked hard and got any pockets full
Feelin like I can't get enough so let's keep chasing
Tryna catch a buzz

This is for the boys on the backroads
Livin it up with them tadpoles
Camouflage
Where they at who knows you can't see'em
This is for the girls in the country
Drivin them boys crazy
Suns gettin low when it's time to go
Load'em up and roll out
Been a long hard week we've made it through
Let me tell you what we're about to do

Yeah we riding high tonight
Dust up in them headlights
Got'er hooked on this good life
And babys lookin oh so fine
Soundin like thunder when we lose control
Done worked hard and got my pockets full
Feelin like I can't get enough so let's keep chasing
Tryna catch a buzz

This here for them city folk who ain't never been here before
Paved over paradise ya'll don't know what you're missin
And this for my KunTree people who know they ain't never leaving
It's deep down it's rooted it's in our blood
And passed down from generations
And cut through the vegetation
The way that it is, is the way it was

Yeah we riding high tonight
Dust up in them headlights
Got'er hooked on this good life
And babys lookin oh so fine
Soundin like thunder when we lose control
Done worked hard and got my pockets full
Feelin like I can't get enough so let's keep chasing
Tryna catch a buzz
Tryna catch a buzz
So let's keep chasing
Keep on chasing
Tryna catch a buzz
