

# Heaven In The South

Taylor Ray Holbrook

It's where I took my first breath  
It's where they'll lay me down to rest  
Man, I'm blessed, this place is home to me  
We've got the best views around  
I was lost where I've been found  
On sacred ground where I'll spend eternity

We got heaven in the south  
It's the closest thing to paradise that I've found  
Angels walking around without any wings  
It's enough to make this country boy sing  
If you've been down here, you know what I'm talkin' 'bout  
We got heaven in the south

Where the honeysuckles are growing wild like a  
Barefoot, wild-eyed southern child  
Yeah, we pass the time and try to beat the heat  
We throw down till the sun comes up  
We've all drank from a Dixie cup, yeah, Dixie  
I guess that's a part of me

We got heaven in the south  
It's the closest thing to paradise that I've found  
Angels walking around without any wings  
It's enough to make this country boy sing  
If you've been down here, you know what I'm talkin' 'bout  
We got heaven in the south (We got heaven in the south)

It's the closest thing to paradise that I've found  
Angels walking around without any wings  
It's enough to make this country boy sing  
If you've been down here, you know what I'm talkin' 'bout  
We got heaven in the south  
We got heaven in the south  
We got heaven in the south  
We got heaven in the south
