

# Snooze

**Taylor Ray Holbrook**

When you're right here beside me in my bed, I sleep in  
I don't hear that alarm going off beside my head talking  
(beep, beep, beep) Yeah  
One set for 7 and one 7:02 and the fifth clicks off I'm set on  
you  
Honey, every day with you's a honeymoon

'Cause baby I work hard, so we can play harder  
Everything I do, I do it for you  
And when we make love, I can't wake up  
The world, it spins around to the sound of me and you  
Baby, you're my snooze, baby, you're my snooze

The way your hand fits inside of mine, it feels right  
And my rough and tough's just strong enough to tame your wild  
But your gentle touch and your simple way  
Puts me to ease like a summer rain  
Call the boss, tell him I'm gonna be late

'Cause baby I work hard, so we can play harder  
Everything I do, I do it for you  
And when we make love, I can't wake up  
The world, it spins around to the sound of me and you  
Baby, you're my snooze, baby, you're my snooze

Well every night I go to bed thinkin'  
I picture the girl of my fantasy  
Wake up I must be dreamin'  
'Cause you're right there next to me  
When we wake up and we make love  
The world, it spins around to the sound of me and you  
Baby, you're my snooze, baby, you're my snooze  
Baby, you're my snooze, baby, you're my snooze  
Oh, yeah
