

Them Backroads

Taylor Ray Holbrook

Can't get you off my mind
What you doing tonight
I gotta see you
No I ain't got no plans
All I'm thinking is
I just gotta see you
Meet me in your drive in a few

You and me gonna take a little ride
Gettin in your wild side
We can do some things your daddy wouldn't like
Like a little sippin on some moonsine skinny dippin
Slow dancing in the headlights or
How bout some kissing on a tailgate reminiscing
Parked up and outta clear sight
Who knows where the night will go
When we on them backroads

Roll your windows down say we ditch this town
Get away for a little while
Go back to that spot where we first got lost
Man can see for a kuntree mile
Yeah I know it's been a while

You and me gonna take a little ride
Gettin in your wild side
We can do some things your daddy wouldn't like
Like a little sippin on some moonsine skinny dippin
Slow dancing in the headlights or
How bout some kissing on a tailgate reminiscing
Parked up and outta clear sight
Who knows where the night will go
When we on them backroads
When we on them backroads

You and me gonna take a little ride
Gettin in your wild side
We can do some things your daddy wouldn't like
Like a little sippin on some moonsine skinny dippin
Slow dancing in the headlights or
How bout some kissing on a tailgate reminiscing
Parked up and outta clear sight
Who knows where the night will go
When we on them backroads
And we on them backroads
