

What A Time To Be Alive

Taylor Ray Holbrook

Cd's don't spin like they used to
Cigarettes ain't cool anymore
Cell phone stay on conversations all gone
Same day shipping to your front door

But the world still turns and the sun still shines
The moon still comes back at night
Beers still good every things alright
I know it's a crazy life but
What a time to be alive
Oh what a time to be alive

KunTree ain't country like it once was
Cars charge then drive themselves
Swipe right online might find your wife
Might up just wind up someone else

But the world still turns and the sun still shines
The moon still comes back at night
Beers still good everythings alright
I know it's a crazy life but
What a time to be alive
Oh what a time to be alive

We're all gonna be okay
We're all gonna be alright
We're all gonna be okay
Alright okay alright okay

Cause the world still turns and the sun still shines
The moon still comes back at night
Beers still good everythings alright
I know it's a crazy life but
What a time to be alive
Oh what a time to be alive
Be alive oh what a time to be alive
