

All Of The Girls

Taylor Swift

[Verse 1]

When you think of all the late nights
Lame fights over the phone
Wake up in the morning with someone, feeling alone
The heart is drawn around your name in someone's handwriting, not mine
We're sneaking out into town
Holding hands just killing time
Your past and mine are parallel lines
Stars all aligned, they intertwined

[Pre-Chorus]

Then taught you
The way you call me baby
Treat me like a lady
All that I can say is

[Chorus]

All of the girls you loved before
Made you the one I've fallen for
Every dead end street led you straight to me
Now you're all I need
I'm so thankful for all the girls you loved before
But I love you more

[Verse 2]

When I think of all the makeup
Fake love out in the town
Crying in the bathroom
For some dude whose name I cannot remember now
Secret jokes all alone
No ones home
Sixteen and wild
We're breaking up, making out
Leave without saying goodbye

[Pre-Chorus]

Just know that its everything that made me
Now i call you baby
Its why you're so amazing

[Chorus]

All the girls you loved before
Made you the one I've fallen for
Every dead end street led you straight to me
Now you're all I need
I'm so thankful for all the girls you loved before
But I love you more

[Bridge]

Your mother brought you up loyal and kind
Teenage love taught you theres good in goodbye
Every woman that you knew brought you here
I want to teach you how forever feels

[Chorus]

And the girls you loved before
Made you the one I won't let go

Every dead end street led you straight to me
Now you're all I need
I'm so thakful for
All of the girls you loved before
I love you more
