Forever & Always

Taylor Swift

```
           C                    G            D
Once upon a time, I believe it was a Tuesday
        C                          G          D
When I caught your eye, we caught onto something
          C              G            D
I hold onto the night, you looked me in the eye
             C            D
And told me you loved me, were you just kidding?

           C               G             D
'Cause it seems to me his thing is breaking down
              C                        G        D
We almost never speak, I don't feel welcome anymore
                 C
Baby what happened
                          G
Please tell me cause one second it was perfect
              D
Now you're halfway out the door

           C                      G
And I stare at the phone, he still hasn't called
            D                          Emi
And then you feel so low you can't feel, nothing at all
           C              G               D
And you flashback to when he said forever and always

             C                   G
Oh, and it rains in your bedroom, everything is wrong
     D                            Emi
It rains when you're here and it rains when you're gone
        C            G              D
'Cause I was there when you said forever and always

        C                  G            D
Was I out of line? Did I say something way to honest?
         C              G          D
Made you run and hide like a scared little boy
            C                     G          D
I looked into your eyes, thought I knew you for a minute
          C       D
Now I'm not so sure

            C        G            D
So here's to everything() coming down to() nothing
          C        G          D
Here's to silence that cuts me to the core
                  C
Where is this going?
            G        D        C       D
Thought I knew for a minute but I don't anymore

            C                      G
And I stare at the phone, he still hasn't called
            D                          Emi
And then you feel so low you can't feel, nothing at all
        C              G                   D
```

And you flashback to when he said forever and always

```
            C                          G
Oh, and it rains in your bedroom, everything is wrong
     D                           Emi
It rains when you're here and it rains when you're gone
         C           G                 D
'Cause I was there when you said forever and always
```

```
                     Emi D C
Did you mean it baby?,
                  Emi D C D
I don't think so,
```

```
C G D Emi C G D
```

```
     Emi              C
Oh back up, baby back up
              D
Did you forget everything?
Emi           C
Back up, baby back up
              D           C D
Did you forget everything?
```

```
            C                          G
'Cause it rains in your bedroom, everything is wrong
     D                           Emi
It rains when you're here and it rains when you're gone
         C           G                 D
'Cause I was there when you said forever and always
```

```
            C                          G
Oh I stare at the phone, he still hasn't called
               D                         Emi
And then you feel so low you can't feel, nothing at all
         C           G                 D
And you flashback to when we said forever and always
```

```
            C                          G
And it rains in your bedroom, everything is wrong
     D                           Emi
It rains when you're here and it rains when you're gone
         C           G                 D
'Cause I was there when you said forever and always
```

```
                     Emi D C
You didn't mean it baby,
                        Emi D C
You said forever and always,
```
