

All On Me

Tchami

I can see you watching
Watching me undress
There's no way of stopping
You know what's coming next

If you let me focus
I can take us higher
I see what you notice
And even you desire

Are you afraid to leave?
Are you afraid to give?
You know that love forgives
Just put it all on me

Just put it all on me
Just put it all on me
Just put it all on me
Just put it all on me

I can see you watching
Watching me undress
There's no way of stopping
You know what's coming next

If you let me focus
I can take us higher
I see what you notice
And even you desire

Are you afraid to leave?
Are you afraid to give?
You know that love forgives
Just put it all on me

Just put it all on me
Just put it all on me
Just put it all on me
Just put it all on me

I can see you watching
Watching me undress
There's no way of stopping
You know what's coming next

If you let me focus
I can take us higher
I see what you notice
And even you desire
