

Missing You

Tchami

I've been missing you, baby
One ring if you missed me too
Kissing is easy thing with you, but
All I can do is think of you? on my heart?
I let my heart within reach of the star
I feel pain nothing else can compare to

Nothing else

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

Nothing else
I've been missing you

And if your

And if your

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true
Feelings are true
Feelings are true

And if your feelings are true

Feelings are true
Feelings are...
