

# Praise

Tchami

Fly attire, NASCAR driving  
Driving outer space  
Your supplier, I stay higher  
I'm on drugs everyday  
I'm messiah, I desire  
To take over the states  
I'm a fighter, we don't get tired  
Reason I got it made

Paid a helluva price to live this life  
In sun we don't see shade  
She caught my eye, might make her my wife  
I know she wanna be saved  
Spend a little time, you have a goodnight  
On a island watchin' the waves  
Diamond without appraise  
Finally someone to praise (someone to)

Finally someone to  
Finally someone to praise  
Finally someone to
