

# Toxic Love

Tchami

Crippling emotion  
I got the notion  
My enemy is closer  
Said I called you a friend  
Wings are in motion  
Feel it getting closer  
Wanna see me broken

I know you will fall with the sunset  
I see you take all but you never give  
I know you won't call me to send me love  
I know time is showing me who you truly are

I'm feeling toxic love  
I feel things  
Breaking up  
Tell me tell me did you get your glory?  
Toxic love

All that I need is a soul and a fire  
I just want beats to take my spirit higher  
Till I reach eternal sunlight  
Eternal sunlight  
Eternal sunlight

Snakes in the garden  
I feel it hiding  
Got too many fake friends  
Selling out for an in  
You can never get far  
Racing with the fast cars  
You get just what you give

I know you will fall with the sunset  
I see you take all but you never give  
I know you won't call me to send me love  
I know time is showing me who you truly are

I'm feeling toxic love  
I feel things  
Breaking up  
Tell me tell me did you get your glory?  
Toxic love

All that I need is a soul and a fire  
I just want beats to take my spirit higher  
Till I reach eternal sunlight  
Eternal sunlight  
Eternal sunlight

And when you're lost don't come crawling  
I'll pray for you  
When it's dead, then it's gone, no revival

And when you're lost don't come crawling  
I'll pray for you  
When it's dead, then it's gone, no revival
