TCTS

Falling into colour with every breath  
I'm feeling it  
Pull me even closer  
I levitate  
So, give me it

I need you under the flashing lights  
Stay with me through the night  
Amnesia  
Feelings are running wild

I need you melting with every touch  
Falling into your love  
Amnesia  
Giving into the rush

I need you under the flashing lights  
Stay with me through the night  
Amnesia  
Feelings are running wild

I need you melting with every touch  
Falling into your love  
Amnesia  
Giving into the rush

Amnesia

Giving into the rush
