

# Better Without You

TCTS

Knew it wasn't right  
But it's been some time  
Now I got used to us  
We've been playing games  
I should walk away  
Feel like I'm stuck on you

Tell me something that will hurt  
That you've been with other girls  
Baby, come on, make it easier  
Go to dinner with your ex  
Don't reply, ignore my text  
Anything to make it easier

(So give me up)  
You should let me go  
'Cause I need to know  
That I'm better without you  
(Push me back)  
When I pull you close  
'Cause I need to know  
That I'm better without you  
I'm better without you

Better without you, better without you  
(Oh)  
Better without you, better without you  
(I'm better without you)  
Better without you, better without you  
(Oh)  
Better without you, better without you

(Give me up)  
You should let me go  
'Cause I need to know  
That I'm better without you  
(Push me back)  
When I pull you close  
'Cause I need to know  
That I'm better without you

Going out to misbehave  
Then come back to me  
Like it's nothing at all  
Yeah, I know that I gotta go  
But you never make it that simple  
You're making it hard

(Give me up)  
You should let me go  
'Cause I need to know  
That I'm better without you  
(Push me back)  
When I pull you close  
'Cause I need to know  
That I'm better without you  
I'm better without you

Better without you, better without you  
(Oh)  
Better without you, better without you  
(I'm better without you)  
Better without you, better without you  
(Oh)  
Better without you, better without you

(Give me up)  
You should let me go  
'Cause I need to know  
That I'm better without you  
(Push me back)  
When I pull you close  
'Cause I need to know  
That I'm better without you  
I'm better without you
