

Day & Night

TCTS

Started out like in the movies
Now you're seeing through me
It's not okay
I see everything we could be
Honestly, it scares me either way
I don't even know what happened
Gotta love this passion we can't escape
High hopes, no one ever had those
Now we're like a habit I can't break

Day and night
Day and night
Day and night
Day and night
Day and night

Falling in and out of focus
Wonder if you notice or you don't
Promise I can't even help it
You can make restless on your own
I don't know if there's a heaven
But when you're beside me then I know, oh
I got too many emotions
I been kinda hoping I'm not alone

Day and night
Day and night
Day and night

You can show me what it's like
You can love me day and night

Day and night
Day and night
Day and night
Started out like in the movies
Day and night
Started out like in the movies
Day and night
