

I feel it in my bones, in my body to my toes  
Lately you've been acting shady  
Girl you're smiling at your phone, must be something I don't know  
It's the way you look right through me

Ooh, how can I sleep when I know that you lie?  
You say that you're out with your friends for the night  
Ooh, I don't believe you, I'm losing my mind  
Tell me the truth now

Where'd you go to?  
And what's her name?  
Where'd you go to?  
Do you love her just the same?

Once upon a time we were living in a dream  
That was all we ever wanted  
You got blinded by her light running far away from me  
Why you gotta be so heartless

Ooh, how can I sleep when I know that you lie?  
You say that you're out with your friends for the night  
Ooh, I don't believe you, I'm losing my mind  
Tell me the truth now

Where'd you go to?  
And what's her name?  
Where'd you go to?  
Do you love her just the same?  
Where'd you go to?  
And what's her name?  
Where'd you go to?  
Do you love her just the same?
