

Out Of Time

TCTS

(We're out of time)
I've been thinkin' 'bout if we're gonna last for life
(We're outta, ah-ah, we're out of time)
Pictures goin' 'round, don't know how to stop my mind
(My mind)

Every conversation's in my head
'Cause I don't got the backbone to forget
I wanna let it out, are we gonna last for life?

It's in your eyes
Day and night
With every lie
I know you know
We're out of time
You say that we're fine
I know that you lie
'Cause we both know
We're out of time

We're outta, ah-ah, we're out of time
We're outta, ah-ah, we're out of time
You say that we're fine
I know that you lie
'Cause we both know
We're out of time

Keep on thinkin' 'bout if we're gonna last for life
(We're outta, ah-ah, we're out of time)
I try to shut it out, wish I could control my mind
(My mind)

Every conversation's in my head
There's not a single word that I'll forget
Gotta let it out, are we gonna last for life?

It's in and out
Day and night
With every lie
I know you know
We're out of time
You say that we're fine
I know that you lie
'Cause we both know
We're out of time

We're outta, ah-ah, we're out of time
We're outta, ah-ah, we're out of time
You say that we're fine
I know that you lie
'Cause we both know
We're out of time

We're out of time
You say that we're fine
I know that you lie
'Cause we both know

You and me, you and me, we're out of time
You and me, you and me, we're out of time
You and me, you and me, we're out of time
You and me, you and me (We're out of time)

We're out of time

(We're out of time)
You say that we're fine
I know that you lie
'Cause we both know
We're out of time
