

You

TCTS

I have doubted everything about you
To be fair
Everything I own can be taken and sold
I don't care (I don't care)
All that glitters and gold when you leave it's alone
Come with me, let's go home
You can lead, I will follow

I have doubted everything about you
To be fair
Everything I own can be taken and sold
I don't care (I don't care)
I've been longing for you in the mornings
Everything I thought I know is forgotten when we are alone
Ooh oh oh oh

All I want is you, All I want is you
All I want is you, All I want is you
All I want is you, All I want is you
All I want is you, All I want is you

All I want is you, All I want is you
All I want is you, All I want is you
All I want is you, All I want is you
(All I want is you, All I want is you)
All I want is you, All I want is you

(You, you, you, you)
