

# Shower

Teairra Mari

I wake and I whisper to you think that you should follow me  
(To the next room, wanna treat you)  
I'ma take your hand and lead you  
Close your eyes, I want you to play this game with me  
(Trust me, baby)  
First we take it all off, turn the water on  
Then we step into the shower, wet it up, come on  
So touch, if you please, here's the spot  
Baby, take this dip with me

Boy come with me  
I'm about to set the shower scene  
We can make it hot, we can make it steam  
Show me what you got, just don't keep it clean  
Boy come with me  
I'm about to set the shower scene  
We can make it hot, we can make it steam  
Show me what you got, just don't keep it clean

I see the water drippin' down your back and it's turnin' me on  
(And I'm 'bout to lose control)  
The way ya bodies glistening, there's no way I can keep my hands off  
(So I touch you)  
Bodies wound into one, now were sharin' love  
Gettin rid of inhibitions, 'cause we want it all  
So touch, if you please, here's the spot  
Baby, take this dip with me

Boy come with me  
I'm about to set the shower scene  
We can make it hot, we can make it steam  
Show me what you got, just don't keep it clean  
Boy come with me  
I'm about to set the shower scene  
We can make it hot, we can make it steam  
Show me what you got, just don't keep it clean

Don't hold back, just explore  
Do whatever you want inside  
Don't hold back, just let go  
Do whatever comes to your mind  
All for you, what I do  
Every drip, every move (Every move)  
Make me yours, whatever you need  
You're free to choose, don't keep it clean

Boy come with me  
I'm about to set the shower scene  
We can make it hot, we can make it steam  
Show me what you got, just don't keep it clean  
Boy come with me  
I'm about to set the shower scene  
We can make it hot, we can make it steam  
Show me what you got, just don't keep it clean
