

Touch It

Teairra Mari

Holler

We make the boys wanna holler
You talk bout the game but talk is cheap
Let's get it popping boy
i get lower in a Lamborghini
See me ain't no stopping boy
I hope that ain't your girlfriend
That keeps on rolling eyes like that
Like i wont jump over over this table
help her straight and get her eyes right
I ain't got a boyfriend
I came all alone tonight
Like kobe in the Fourth quarter
Yeah I'm in my zone tonight

I'm gonna pack it up
You buy me a drink
While I turn it up
Tell me what you think
It was all a tease
But he must look like he sees
Cause hes all up in my ear
Tryna get me to his crib
Cause I know he wanna touch it
I know he wanna touch it
Tryna run this game
But he must have known my name
That boy's been staring at me the whole night
and I know he wanna touch it
I know he wanna touch it

I'll be popping
I'll be locking
know it was a sight to see
I might even throw it back up on you
If I like the beat
I can see it in your eyes
And the way you rubbing all up on my thighs..

I can ride it like Ciara
but my name Ciara
And I see a bad bitch when I look in the mirror

I'm gonna pack it up
You buy me a drink
While I turn it up
Tell me what you think
It was all a tease
But he must look like he sees
Cause hes all up in my ear
Tryna get me to his crib
Cause I know he wanna touch it
I know he wanna touch it
Tryna run this game
But he must have known my name
That boy's been staring at me the whole night
and I know he wanna touch it

I know he wanna touch it

All my ladies sayin
If you know they wanna touch it
Talking and twisted
When I'm out on the dance floor
I am not the girl that you used to be happy for
&Even though you love it
You can never touch
Go and see your prince
Grab all the deals

I'm gonna pack it up
You buy me a drink
While I turn it up
Tell me what you think
It was all a tease
But he must look like he sees
Cause hes all up in my ear
Tryna get me to his crib
Cause I know he wanna touch it
I know he wanna touch it
Tryna run this game
But he must have known my name
That boy's been staring at me the whole night
and I know he wanna touch it
I know he wanna touch it

Holler
We make the boys wanna holler (2x)
