

Blind as Night

Team Me

Blind as night
Fever
Shaggy like a leaf

Blind as night
No sleep

Put me to sleep
Take off all my clothes
My body is burning

Those who would harm
Won't get far
This body is burning

Put me to sleep
Take off all my clothes
My body is burning

Those who would harm
Won't get far
My body is burning

I toss and turn
I never learn
When the fever runs high
There's no place to hide

I don't know
What I'm looking for
But at least I know
What I wanna throw away
Hey!

Blind as night
Fever
Nothing left to say

Blind as night
This is little

Put me to sleep
Take off all my clothes
My body is burning

Those who would harm
Won't get far
This body is burning

I toss and turn
I never learn
When the fever runs high
There's no place to hide

I don't know
What I'm looking for
But I least I know

What I wanna throw away

I toss and turn

I never learn

When the fever runs high

There's no place to hide

I don't know

What I'm looking for

But I least I know

What I wanna throw away
