Team Me

Female lead, oh please just give me
Give me one more day
I can't decide if I should stick around
Or head another way
'Cause your crooked face looks kind of tired
Kind of tired now
She's been up for several days and now she's
Sleeping on the floor

The city sleeps while you're unconscious
And I'm right next to you
With a picture of our mother folding hands at the age of 22
And the winter outside, it looks just like you
So beautiful and pale
Yes the winter outside, it looks just like you
So beautiful and pale
