

Favorite Ghost

Team Me

My favorite ghost
Happy little thing
Dancing all around

Used to be
Close to me

Now it's just a shadow
A whisper in the dark

Caught up in
Perfection once again
Perfection once again

I'm readable
I'm readable

Only for machines
Only for machines

Welcome home
Have yourself a seat
Have yourself a seat

Take control
Take control

Pollute whatever's left
Pollute whatever's left

Dehumanize
Petrify and scare
Petrify and scare

This love away
This love away

Sleeping with the fishes
It's not coming back
