

The All Time High

Team Me

Wide awake in a world
At the end of its night
And young love like ours
Will not survive this night

Shut your eyes
And your mouth
And try this moment out
'Cause it's real
And it's here
And it's flowing through your veins

Building in your bones

We believe in true sensations
The all time high
Doesn't really matter how hard
We may try
We still lose!

Still awake in a world
At the end of its night
And young love like ours
Will not survive this night

Does it burn
As bad?
Does it burn as bad for you?
'Cause it's real
And it's here
And it's flowing through our veins

Building in our bones

We believe in true sensations
The all time high
Doesn't really matter how hard
We may try
We still lose!

It's flowing through your veins
Building in your bones
