

Bad For Me

Tebey

Like the drink swirling in my glass
Like the smoke in my cigarette
Like the sleep that I just can't get
That's you, that's you
You're the craving that I can't resist
And I hate it when I taste your lips
Cause I know I'll be coming right back for it
I never understood
How something that feels so good

Could be so bad for me
I never understood how something that feels so good
Could be so bad for me
I never understood baby

You're the trouble I don't wanna be making
You're the rules that I can't stop breaking
Baby you're the one thing I can't walk away from
I never understood
How something that feels so good

Could be so bad for me
I never understood how something that feels so good
Could be so bad for me
I never understood how something that feels so good
Could be so
Bad for my head, for my heart you're my weakness
Tearing me apart girl, why you gotta be this bad for me?

(Like the drink swirling in my glass)
(Like the smoke in my cigarette)

Why you gotta be so bad for me?
I never understood how something that feels so good
Could be so bad for me
I never understood how something that feels so good
Could be so
Bad for my head, for my heart you're my weakness
Tearing me apart girl, why you gotta be this bad
(Never understood how something that feels so good)
Could be so bad for me
I never understood baby
