

Doing It Again

Tebey

Your song comes on
And you start driving a littler faster
It's a picture I wanna capture
You chase the sun
And shine like California
Yeah baby I adore ya

Cause you don't even know that you're stopping my heart
All you do is smile and I'm falling apart
You ain't even trying and pulling me in
Yeah there you go, doing it again

You write 'be mine'
On the mirror with a kiss
And I come running for your lips
You cry, when you're mad
And just want me to hold ya
Lay your head on my shoulder

And you don't even know that you're stopping my heart
All you do is smile and I'm falling apart
You ain't even trying and pulling me in
Yeah there you go, doing it again
Baby, doing it again

You don't even know that you're stopping my heart
All you do is smile and I'm falling apart
You ain't even trying and pulling me in
Yeah there you go

Leaning in closer waiting on my kiss
The waves of the ocean don't hit hard as this
You make every moment one I don't wanna miss
Oh there you go, doing it again
Doing it again
Ooh
