

# Happened On A Saturday Night

Tebey

If you were gonna park that truck by the levee  
If you were gonna kiss that girl  
If you were gonna lay in the bed of a Chevy  
Staring up at a small-town world

If you were gonna buy some beer with your brother's ID  
The one he made in high school  
If you were gonna give her your heart  
And put it all on the line

It happened on a Saturday night  
Drove a little too fast, kissed a little too slow  
Turned it all the way up, burning down a back road  
Spilled some paint on the ground  
When we painted that town  
If it happened, then it happened  
On a Saturday night

We'd circle up in the parking lot  
Of that all night 7-Eleven  
You'd smile at me from a shotgun seat  
Sippin' on whiskey seven  
If you were gonna steal my heart  
And maybe cross that line

It happened on a Saturday night  
Drove a little too fast, kissed a little too slow  
Turned it all the way up, burning down a back road  
Spilled some paint on the ground  
When we painted that town  
If it happened, then it happened  
On a Saturday night

(If it happened, then it happened)  
On a Saturday night  
Oh yeah

We drove a little too fast, kissed a little too slow  
Turned it all the way up burning down a back road  
Spilled some paint on the ground  
When we painted that town  
If it happened, then it happened  
On a Saturday night

Drove a little too fast, kissed a little too slow  
Turned it all the way up burning down a back road  
Spilled some paint on the ground  
When we painted that town  
If it happened, then it happened  
On a Saturday night

(Drove a little too fast, kissed a little too slow)  
On a Saturday night  
(Spilled some paint on the ground)  
(When we painted that town)  
Happened on a Saturday night
