

## Let It Down

Tebey

Girl, I love your hair like that  
Tucked underneath that old ball cap  
But my fingers ain't got nothing to run through  
So let it down

And that moon is shining way too bright  
Girl, all we need's the candle light  
What do you say I go and pull the shade  
And let it down

Baby, all the walls you've built around your heart  
It's time we knocked 'em to the ground.  
Everyone's got history, but girl you're safe here with me  
That hurt that you've been carrying 'round  
Let it down  
Oh, let it down

Let it down like a drop of rain  
Let it down like a falling star  
Let it down like an answered prayer  
Let it down in the name of love  
Let it down, girl, for you and me  
Let down your guard and don't be scared

Baby, all the walls you've built around your heart  
It's time we knocked 'em to the ground.  
Everyone's got history, but girl you're safe here with me  
That hurt that you've been carrying 'round  
Let it down  
Girl, let it down  
Let it down

Ooh, girl I love your hair like that  
Tucked underneath that old ball cap
