

Lightweight

Tebey

When I'm out with the boys
Girl, you know I can handle that 90 proof from the top shelf
Any night of the week
Ain't afraid to get crazy, raise a little work week hell

But you know that your love is a different kind of buzz
And you know when I'm on it

I'm a lightweight
Girl, I admit it, don't know my limits when I'm kissing you
I'm a lightweight
Don't know when to quit, ain't no way to sip every bit of you
Got me swerving the curves of your body's highway
Got my head and my heart and the room spinning sideways
What can I say?
I'm a lightweight
Yeah I'm a lightweight

When we're out with our friends
Throwing down downtown, got your hand on my knee just a teasin'
And I'm playing it cool
But to tell you the truth, all I can think about is leaving

But you know that your love is a different kind of buzz
And you know when I'm on it

I'm a lightweight
Girl, I admit it, don't know my limits when I'm kissing you
I'm a lightweight
Don't know when to quit, ain't no way to sip every bit of you
Got me swerving the curves of your body's highway
Got my head and my heart and the room spinning sideways
What can I say?
I'm a lightweight
Yeah I'm a lightweight
You know it, girl

But you know that your love is a different kind of buzz
And you know when I'm on it

I'm a lightweight
Girl, I admit it, don't know my limits when I'm kissing you
I'm a lightweight
Don't know when to quit, ain't no way to sip every bit of you
Got me swerving the curves of your body's highway
Got my head and my heart and the room spinning sideways
What can I say?
I'm a lightweight
I'm a lightweight
Baby, I'm a lightweight
