

That's Gonna Get You Kissed

Tebey

Your hand on my knee just talking
Acting like you don't see this fire that you're starting
But I'm loving the way you're...
Playing it cool but I'm on it
Girl you know I'm onto you
I know exactly what you're tryna do, yeah

When you lean in a little bit closer
Laughing at every joker
Can't say that I didn't warn you
I'll tell you right now

That's gonna get you kissed
That's gonna get your lips on mine
That's gonna get you into my arms
You know I can't lie
That's gonna get you up real close
That's gonna make up for one of those
"Happened so fast but real slow"
Times that you won't forget
Yeah, that's gonna get you kissed

You found that line and your crossed it
Looking into your eyes, there's no sign of stopping, no

We'll lean in a little bit closer
Laughing at every joke, girl
Can't say that I didn't warn you
I'll tell you right now

That's gonna get you kissed
That's gonna get your lips on mine
That's gonna get you into my arms
You know I can't lie
That's gonna get you up real close
That's gonna make up for one of those
"Happened so fast but real slow"
Times that you won't forget
Yeah, that's gonna get you kissed
Oh

That's gonna get you kissed
That's gonna get your lips on mine
That's gonna get you into my arms
Oh, I can't lie
That's gonna get you up real close
That's gonna make up for one of those
"Happened so fast but real slow"
Times that you won't forget
Yeah, that's gonna get you kissed
Yeah, that's gonna get you kissed
Ooh, yeah

When you lean in a little bit closer
