

What Was I Drinking

Tebey

Just another Friday night
Hanging out with my friends
Laughing and tipping 'em back
Just like you never left
That buzz was leading me on
Helping me to forget
Can't believe I was telling myself

It ain't gonna hurt that bad
You ain't gonna want her back
Least that's what the drinks had me thinking
Bartender, pour 'em all strong
That girl is better off gone
I was drunk and the room kept spinning
I guess the whiskey on ice
Had me believing them lies
Till the missing you sank in
What was I drinking?
Yeah

My buddies kept 'em coming
Till I was feeling nothing
We were done, I wasn't thinking 'bout us
Won't be no happy ending
So I just kept pretending
I didn't even love you that much

It ain't gonna hurt that bad
You ain't gonna want her back
Least that's what the drinks had me thinking
Bartender, pour 'em all strong
That girl is better off gone
I was drunk and the room kept spinning
I guess the whiskey on ice
Had me believing them lies
Till the missing you sank in
What was I drinking?

What was I drinking?

It ain't gonna hurt that bad
You ain't gonna want her back
Least that's what the drinks had me thinking
Bartender, pour 'em all strong
That girl is better off gone
I was drunk and the room kept spinning
I guess the whiskey on ice
Had me believing them lies
Till the missing you sank in
What was I drinking?

What was I drinking?
What was I drinking?
