I'm here because last year, my mom almost died from pancreatiti s. When she was 18, epilepsy hit... you know. Couple years ago, whenever that after she had epilepsy all her life, taking Dila ntin, taking different types of medicine, and out of a psychiat ric ward, --you know what I mean?--lupus hit her, you know? So my question... to God was, "this is the lady that taught me how to love... this is the lady that taught me. Taught me how to c are, you know what I'm sayin'. Yet she's been tortured all her life." And... uh, I'm asking God like, "Why did it have to be m ine, you know?" That's all it turned into.
