

# Face Down

Tech N9ne

This is for you  
No one in particular  
For you  
No one in particular  
No one, no one  
Yeah, yeah, look

Now I ain't got a problem with people rejecting me  
Until they only wanna get next to me  
If you don't love me, then you don't love me I guess  
But don't put me out there, you know what's next  
I hide from you, I know you don't feel me  
Cyanide, cyanide, like you 'gon kill me  
I might fall off, but guess who get up  
That makes me soft, yeah, gonna run up

Face down, every time I get up  
I see the funny look that's on your face now  
I ain't bout to put up with bullshit  
Ain't got time to waste now  
Pull up on me, nigga pull up  
Now you in my face now, wait hold up  
Face down

I don't think you see me  
Maybe I've become too invisible  
Nobody believes me  
'Cause they see me smile and I'm miserable  
Stay true, stay true  
Say real niggas stay true  
Well if you say I'm the realest  
Tell me what that make you

Face down, every time I get up  
I see the funny look that's on your face now  
I ain't bout to put up with bullshit  
Ain't got time to waste now  
Pull up on me, nigga pull up  
Now you in my face now, wait hold up  
Face down

Falling out of love with  
What I do, blame it on you  
Loyal, loyal what I'm used to  
Falling out of love with  
What I do, blame it on you  
Loyal, loyal what I'm used to

Face down, every time I get up  
I see the funny look that's on your face now  
I ain't bout to put up with bullshit  
Ain't got time to waste now  
Pull up on me, nigga pull up  
Now you in my face now, wait hold up  
Face down

This is for you

No one in particular  
For you  
No one in particular  
No one, no one
