Tech N9ne

(Next message)

Um, I'm sorry, but, did I do something to you that you are not answering my calls or returning my calls, answering my texts, something, I mean how did you go from completely fine to you don't wanna talk at all? I mean, come on, what's the problem? I need one thing done, it should not be that hard, you'd break your leg for everybody else

I fired her, she want her blow job back no throw back (no throw back)  
You fuckin' the picture in your Kodak photo jack (photo jackin')  
she loco, she loco, she makin me postal (postal)  
she lookin' real bozo, she sayin she missin me all on the social  
that is a no no (Donald Trump)

When she was interviewed  
She treated big Donnie like dinner food  
Was listening to the Carter IV interlude  
When she was done I was deflated like an inner tube  
She was totally naked with tennis shoes  
She looked up and said "did I win or lose?"  
I said you's a winner not a beginner  
Her name was Caitlyn, not Bruce Jenner dude  
She took the sucking real serious  
But that shit got older than Sirius  
Too much of me made her oh leery, bitch tripping  
Especially the week of her period  
That PMS did not make a nigga reinvest  
In her eatin' that, if I kept her working a nigga be in debt  
So you being X'ed ain't no seeing Tech  
Before that shit she was a good worker  
Really unique shaft and hood jerker  
Simply by sucking a nigga would burst her  
Into a vaginal ocean but the wood cursed her  
She a sug thirster, sucking on my sugar stick  
I'm telling you this stupid bitch could murder (a dick)  
My security stopped the blood merger  
Now she stood further (a bit)  
She make my legs sway, thinkin 'bout how she would beg, A  
Nigga usually payed when she said pay  
My nigga she really made some good headway  
She still be trying to segway in my bed, hey  
My Jon don't jump  
But I fired her even though she never had a bad head day  
Donald Trump! (Fire that bitch!)

(Yo!) When I met her she was doubttable  
She would run it back into receiver  
She would drive a couple of hours to clean up the crib  
Then fuck me then feed me the type a chick a nigga thought that he needed  
She would cum right when she leaving  
She love rolling me up the loud and talk real quiet when speaking

This shit was gravy though, kit and caboodle amazing though  
Never minded the fellatio, got up on the town  
Bad bitches come around, get a freebie daily though  
Down the line try to play me bro, wrote down on my profiles  
On the socials, got to tweeting out, bitch flipped out  
So I flossed more, no more energy  
I done sit the box of Frosty Mini Wheats  
She replied, "your ass is offending me, almost spazzed now, Stone you killin  
g me"  
She's a bad bitch but she postal  
Plus the penny, they seen the so cold show  
She's a psycho bitch up on the social  
Bitch I've been tryin' not to expose ya, losing my mind  
Tell me how many times (how many times)  
How many times I keep tellin' your ass quit hittin' my lines  
This motion's expired, and no need for any reply  
This is one of the reasons, one of the reasons your ass got fired
