

How I'm Feelin'

Tech N9ne

Yeah Nave Monjo ooh
Creep, creep, creep

Ah
Did it all on purpose
Step into your building to make you nervous
Better cuff your bitch cause she lurking
Spilling all these drinks that I purchased
Hey, something real strange
When I look around I see real things
If you make it out your feelings
Cause this is how I'm feeling

This is how I'm feeling (yeah)
This is how I'm feeling
This is how I'm feeling
This is how I'm feeling

This is how I'm feeling
That Bou Lou gonna give me a billion
Inshallah run it back with the willing
I'm gonna be off on an island chilling
I came a long way from the dealing
And I still run with the 5-6 villain
We live life like it ain't no ceilings
Never been a liver to take a killing
I feel like breakdancing
Cause I got every bitch in the place straight glancing
While they next to their lover looking at me hate stancing
But I'm always with niggas like a fake clansman
How I'm feeling is people keep using identical syllables
Switch it up a little bit I'm feeling that off on this planet is the only one
e feelable
To the masses perhaps to the people not needin variety
Since the umbilical
I'm just a rapper that happens to kill a rope
When I be clapping to kill it all so
