Tech N9ne

Umm

I'm drawing a blank
So many drugs, I done did
Ion memba

It's like I'm in the Twilight Zone
I'm like gone, I might bone
Back in the day when my eyesight's blown
Comin' to see me cause of my microphone
Cause I write songs and now they wanna try right wrongs
I don't 'member none of that
Ain't no filler from a cat
That be off on another level for me to wanna spat
With somebody from a chat
That is bringing summer back
Ten years later because a nigga sung a rap
But I listen to me, I am different
So I don't know what you think is fixing the B
When I was twisting you is nonexistent to me
And now the word can it is missing the T
Missing the T, but it ain't him
When you was sipping the D and it bang trim
Ain't no mixing with me on the gang brim
Lot of chicks in the sea but I can't swim
Bitches sending me pics like remember this
With a pic of they private then send a kiss
I don't try to remember or reminisce
So yeah, it smell like when I catch and skin a fish
Memories escape me, when I take G's
Mixed with molly, and prolly some AC
ID pasties, so fucked up Yates be
That don't give you no valid reason to hate me
I don't try to diss, messed up
I don't remember a lot of shit
Don't be mad at me cause I ain't giving a cock to kiss
Anymore, don't owe anybody a pot to piss
That's enough to have Tech hate it
I don't remember us X-Rated
My brain is so drugged and cess plated
I don't really know what you be meaning when screaming that we sex made it
How the hell when I bust
Seeds off in the mouth, off in the mouth, off in the mouth
She's impregnated, I don't know what the fuck
She talking about, talking about, talking about, no!

You 'memba this, you 'memba that, you 'memba us, you 'memba back
Ion memba
You 'memba we both on the yak then hit it back and we hit the sack
Ion memba
You pulling that new stupid act due to the fact you super rap, who are you t
o cap
You knew me then, don't know me now
Used to be friend, used to be down
Ion memba

Look some people from the past still living in the mess so stressed
And they see your life is less grotesque

So they wonder how did you get so blessed
And the envy is up at last, they will bring up the past
Hoping that you retrogress
That'll make you really check those pests
Mad cause you kick it with the best no less
The divine kind on the fine grind
Cause I'm dying trying
Rhyme shine from a mind dime like an Einstein
From the grime, I'm prime, climb on the timeline
Get better with age every day like a fine wine
But they wanna try to bring back
Memories of when I was a tin bat
Sink crack through it all for the greenbacks
But I don't remember anything that
They talk to me, a debauchery
Well my bad, my memories awful G
Now ease off of me, I think maybe when you see me
You don't wanna be reminded of the mediocrity
You keep stopping me
Bringing up shit to bring me down a notch
Cause in the past I been down a lot
But now it goes up and you're hoping that my crown'll drop
And that my sound'll stop, I see I work hard and hustle
Around the clock, I got the town on lock
Marion Indiana, you down or not
Well if so, quit coming around with toxic
Energy cause I mentally block it
You talk shit and you could get a snake bite pronto
Tryna fuck with the snake and bat, you get shit on
Great white guano

You 'memba this, you 'memba that, you 'memba us, you 'memba back

Ohh, not me, you got me, got me mixed up
I drunk the elixir. now you gassed up
I'm reminiscin'
