Red Kingdom! Woo!
Red Kingdom!
Holy shit, what's you're name?
Mindya
Ooh, Mindya, yeah, Mindya what?
Mind ya business
Ohh
Mindya busin- oh, okay, we got a slick tongue over here, fellas
Fuck off, you're not all that anyway
Don't touch me, don't look at me
What's wrong witchu?
Aye, motherfucker, keep yo' hands to yo'self
Fuck you, black bitch
Oh, we bitches now?
Girl, get in the car and let's go
Aye, leave them sistas alone
What're you guys gonna do about it?
Well, fuck them

I can't believe that just happened
Me either
How is that we just came from a whole-ass, sold-out concert
With people from all walks of life
No fights, no problems, but as soon as we get off this light and
love high, everything is so violent?
Music brings people together, but from what I've seen all over
the world, people don't like each other
