

Everybody see me gotta take a quick flick  
Loving the way I do it when rap and mix it  
Elephant fecal matter, man I'm doing big shit  
Everybody see me gotta take a quick flick

Take a quick flick at the bar  
Then maybe in the car  
Then to the crib and make a flick and go far  
Cause I'm a star  
And they always obsessed  
Don't mind taking a picture when it's  
(1, 2, 3, FLIP!)

I got that rap guap, I'm taking snapshots  
For the jealous ones, I keep something for  
you in the stash box  
But I'm really really focused on Hershey making that ass hop  
Now she want a flick with me, hoping she's at my last stop  
In the middle of a fixture, I was ready to kiss her  
If she would let me cuddle with her sister  
But I'll be ready to hold the camera steady  
Cause when you sweaty, you slip and you missed her  
So we flick and baby girl was thick - 36-24-36  
Beat around the bush for the minute, went to the crib and was in it  
Because I'm taking and making a flick I hit...

I never been the type to dump the cannon  
Even with Tech and Trav in the Phantom  
And, um, stay from this mouth  
It's napalm  
Lame bum when I rock up to your handgun  
C'mon honey, take the picture  
Kiss on Krizz, then you gotta take me with ya  
Itch you can't scratch, a quitter  
Quick Vic then a quick flick  
Then I'm out the window I'm gone  
That means I'm up in the air  
Like a drink that got spilled in a party with smoke everywhere  
At a resort  
That means I'm running like a sucker and never  
Suckered up for loving and  
Go to the places where women, they love me  
And niggas, they mug because bitches, they put me in
