

# Roadkill

Tech N9ne

I need Energy!  
Energy! Energy!  
Choose your weapon  
Send whatever you do in life to hell or heaven  
No question  
Kill it  
Like a MAC-11  
Or Smith & Wesson  
Tech and X and Krizz will make 'em call the reverend

I kill off everything wit' this  
So good you better be bringin' it!  
Killin' em cleverly kingin' shit that is so real  
I will never be dreamin' this!  
Killin' 'em softly no it ain't my lane  
Hard is the way I display my pain  
I put it on murder the moment they say my name!

Ew yeah  
I do share  
War instilled  
I won't spare  
I will spill  
Those who are not real!

ROAD KILL!  
Push, pull, kick, aim, squeeze, drill  
All everyone of ya  
Push, pull, kick, aim, squeeze, drill  
ROAD KILL!

You better be careful with summoning my circle with evil intentions I dominate  
Any competitor etcetera etcetera  
I'm comin' out the victor cause I'm the great!  
?If you continue to come with confusion you're crazy well I can accommodate  
?

You with this bussin' I'm givin' 'em concussions I'm totally crushin' cause I'm a Yates  
I get the people involved, they want me deep in the sprawl  
Wish I was reachin' for peace but I am beefin' with ch'all  
Breakin' your teeth in your jaw  
Labeled a monster when they say that I say donka  
Cause the anger I conjure  
?On the demons we sing I'mma never a bionda?  
?If you're not evil then what is good on ya?

If we fear anything  
That'll mean  
You're the brink  
Lets see what you're made of  
Kill everything you're afraid of  
ROAD KILL!

Thank you for listening to Special Effects...bitch
