

# Sacrifice

Tech N9ne

I ain't really get to do a lot of fun things  
That other teenagers got to do  
So sacrificing all that  
I worked on my craft

So one day I'll be old enough to get it right  
Because Lord knows we don't put up with the sacrifice  
So inside your head don't you give up  
So I done my best while we're livin

But some days I can't see  
All the sun through the rain (Sun through the rain)  
And I won't give up 'til you know why we came  
It's a sacrifice

Livin under strict rules in the house so then  
I skip school. Because that choice I did choose  
Didnt get to hang wit Mike, Will and Big Scoob

My step father had some issues  
Wit the way that I conducted myself so this muse  
Sat up in his room  
And created sick grooves wit blues of a juv it was  
The lit fuse!

At home in the room I'm distant  
But my step daddy was persistent  
Sayin I should change my mission  
Cause out of all these rappers what makes you different?  
I was in the stars and that brought  
Me back ta life did not rap until the rap was right  
Other activities I sacrifice

So one day I'll be old enough to get it right  
Because Lord knows we don't put up with the sacrifice  
So inside your head don't you give up  
So I done my best while we're livin

But some days I can't see  
All the sun through the rain (Sun through the rain)  
And I won't give up 'til you know why we came  
It's a sacrifice

This happened  
Instead of kickin it wit the  
Homies, I worked on his passion  
The food made me really miss rappin on fish  
And cheesteaks I was knick knackin. But it's  
Blastin inside of my head when grease right on my  
Red Pumas the kicks wacken I miss laughin  
Wit the fellas miss that when I'm workin at steak  
N take and at fish captain

But when I get home  
The music flicks on  
And I get lost in that my lonely feelings get gone  
I guess my time to kick it wit

The homies gonna be in the afterlife  
The rap delights I got other things that's the price  
And what I had ta sacrifice

So one day I'll be old enough to get it right  
Because Lord knows we don't put up with the sacrifice  
So inside your head don't you give up  
So I done my best while we're livin

But some days I can't see  
All the sun through the rain (Sun through the rain)  
And I won't give up 'til you know why we came  
It's a sacrifice

Senior prom  
This workin teen was gone  
When I was a young man and missed all that all  
I thought was mean Hassan?  
But the green was bomb  
That I thought while working things was calm  
But had gripes  
Woahs workin on flows when everybody else  
At worlds of fun grad night!

Inside I was hurtin  
But now I'm a surgeon  
When it comes to writin rhymes the practice made this be certain  
Yes I guess I missed lot as  
A kid but rap was caught by tech  
And back in the day unconsciously I got the sacrifice tat across my chest

So one day I'll be old enough to get it right  
Because Lord knows we don't put up with the sacrifice  
So inside your head don't you give up  
So I done my best while we're livin

But some days I can't see  
All the sun through the rain (Sun through the rain)  
And I won't give up until you know why we came  
It's a sacrifice  
It's a sacrifice  
It's a sacrifice  
It's a sacrifice

These are really good stories, Dad  
I'm going to have to hit you back baby  
I got a missed a call from Bella  
Alrighty. Talk to you later  
I love you  
Love you, too  
K
