

## Settle Down

Tech N9ne

I tried, to get myself into the other side  
A paradise (a paradise)  
A paradise (a paradise)  
And I know  
That when it rains it pours  
Know I know  
That you can let it go

Settle down, settle down  
Settle down, settle down  
On this side  
Going down  
Settle down

I been so steeped in the deep  
Been'a keepin' a secret away from those  
Who don't wanna go my way and respect my name  
They gon' learn today fo'sho  
If you gotta piece of the peace  
Then I need on a lease better be for the beat and your soul  
I been off the dome when I roam  
Chase dreams when I go  
Ima see y'all when I get home  
Its been like that, pace based upon this whole rat race  
I been running out of change looking for the gold  
I been tryna find myself all around the globe  
If you ever see me, would you come and let me know if I

Settle down, settle down  
Settle down, settle down  
On this side  
Going down  
Settle down

We ain't never gonna drown in shallow waters  
I been in this booth so long, I know the corners  
I just wanna get out sometime and go explorin'  
Settle down, settle down, settle down, settle down now

Settle down, settle down  
Settle down, settle down  
On this side  
Going down  
Settle down
