Tech N9ne

Can't breathe like this
Suffocating me
I'm shaking underneath
But I can't get enough
I'm shaking underneath
But I can't get enough
As I fall, and I fall, then continuously fall
In the dark, but I saw, so I grabbed and I clawed

Pressure, when pressed against my chest yessir, the aggressor
But if I don't breathe I'm gonna be on a stretcher
Plugged up like a Tesla, steady gaspin'
Chill bumps like we're streaking in Aspen
Cause I'm receiving what is the reason for Aspirin
And hear blasting is in fashion but I can't swim
And that undercurrent, I mean Riptide
Is strong enough to give a brother an abyss ride
And be a stiff guy that got the fish eyes
That is the grimness but I'm on a sin bliss
The reason I'm in this position
I was trying to contend with the water
But then drips'll put you in endless submission
Steady falling now, but it's better than cocaine
And I'm recalling how this feeling is so flame
Just like New Orlean child, how the feeling'll blow brains
Put you all in clouds, near death but no pain, damn

Can't breathe like this
Suffocating me
I'm shaking underneath
But I can't get enough
I'm shaking underneath
But I can't get enough
That I came with this frame, see the strain in my veins
Cause my aim is to drain what I claim on my name

Hot as hell but like Heaven, bite yeps
A lot in braille on my seven, right hand
When the throbbing swell, I think I got impaled
I leave a soggen trail, I'm not fuzzing, like them
Sinking underneath, but what I'm really thinking is I wanna eat
But young defeats the tongue when you gun the teeth, swung the beast, and ev
erything becomes deceased
Suffocating in the best way
Like I'm wishing on my death day
But let's say shortage of breath play
We really get the N9na really going like a jet may
I never stress hey I'm hella essed blay
Cause any given time I get the eck nay
I should invest pay to make the mesh stay
A fresh bae clean us how I get the ex ay
Can't breathe like this, but I don't see crisis
Extremely poetic one of my many vices
It's a trippy time, I wanna hit rewind
Cause what I'm dealing with be the drippy kind
And when you sit feline on the dinner with a big behind
I really love it when we 69

Can't breathe like this
Suffocating me
I'm shaking underneath
But I can't get enough
I'm shaking underneath
But I can't get enough
