

Special

Tech N9ne

Aw yeah,
Aw yeah, ohh
Aw yeah,
Aw yeah, ohh

I was born (born) not the norm (norm)
A baby with extreme talent music was not a challenge
And I keep real balance in a storm
Even though I was torn from my mother when she hit the funny farm
But ain't nothin funny bout it remember them days
I pouted good music playin loud it was a charm
So I blasted it studied the greatest doin it then I mastered it
Clashed wit kids when they saw they couldn't do half of this
Mad that I spit fast and then pass them math quizzes
But when I rap (wrap em all up) in packages
Never to be seen again like actors and actresses
People clapped (clap it all up) for classic hits
Something that I grew to write exactly what magic is yeah
Thank you for all the applause
I know if I ever stop then you will all be appalled
But ya gotta know it's something that draws me to y'all
And it's when you go from dark ta light and you call me that cause (chyeah)
Strange Music moving through me I'm the vessel (chyeah)
I give it to a lot who label me the best though (chyeah)
The bond is one that'll never let go (chyeah)
Over the years all the smiles and the cheers up in here I feel special

You can do anything using your mind
Life is a coaster we're all on this ride
When it brings you down you need to fight, fight (yeah)
Cause everybody's special (yeah) no reason we should hide (yeah)
Forget about them demons (yeah) just spread your wings and fly (yeah)
Yeah everybody's special (yeah) it's crazy what you'll find (yeah)
The power is within you (yeah) just reach in deep inside (yeah)
(Ooh whoa oh ooo ooo)

It ain't about the kinda clothes that I wear (not at all)
Not even the amount of dough I can share (that's a lot)
It's because I remain honest
Makin ya really want it lovin this mighty glow right in there (yeah)
Not only walk yo I breathe it (that's right)
Keepin fake energy off and deleted (facts)
Guess ya wondering what's the cost to achieve it
Nothin you can purchase you got the sauce gotta bleed it (chyeah)
When I ramble it rare
People label me special so they handle wit care
Ain't no ego rippin within me and no despair
Pack a whole lotta spirit and I channel it where
To the people that need it when they're' feeling defeated
I tell em they got that special gene and you can retrieve it
You gotta really believe it then to other people you feed it
Don't conceal it you gotta meet it face to face when you greet it (chyeah)
So what I'm sayin is I ain't better (I aint better than you)
Just took the mic and had courage to share whatever
Rather clever so this song is just a letter (just a letter ta who)
Ever ain't got it together and need a threader (chyeah)
Let's go (chyeah) let Tech know (chyeah)

Cause my energy's soothing and orchestral (chyeah)
Far from death, so I'm still in it to less yo
Stress flow XOXO blessed yo I'm special
