

Starting To Turn

Tech N9ne

Calm, calm
Turning, turning, turning, turning...

Alright
I don't wanna do this anymore, stop
Tellin' me that we can make it in a hell where it's gonna be many more shocks
Use to be I needed love now I need about 3 or 4 shots
With another round just to hit it now yes I'm messier than any gore plot
I am doing what the sick does
Takin anything to get buzzed
'Stead of eatin wit the family I rather get my dinner in a strip club
Not a evil that can rival me becoming even darker than a crip slug comin to clip bloods
Took the gentleman and put him underground like in Dig Dug
So long every day shit there's no hope for we
Repetition kept us glitchin', your folks bore me
I'm turning into what my lady provoked for she never really knew inside of my brain having ho soaked orgies, constantly

Do you really wanna see that things that's turning in me?
Turning in me? NO!
I am, I am, I am liberating me, starting to turn
I didn't do it, got something to stir it up
I am, I am, I am liberating me, starting to turn
I couldn't see it, my hatred is filling me

Migraine, I'm bane, ain't nobody feelin my pain
Stupid women I blame so goodbye sane Imma fry my brain
Drugs Imma try aim to deny shame and defy thy rain
Look into my eye mane I wanna fly gettin really high and die strange
How do I describe, you and I entropy, inside of me an entity
Turning me into to the portion of idenity
That you'll never know there, till my anger make a slow tear
Any beef wanna grow, I swear I eat it so rare, baby oh yeah
Think of your bitchness that hate oh so it's just
Turning me into the insane, playing all kind of sin games
Taking it in like a ganja hit, you're the reason why the bomb was lit
Got me thinking "murder everything in sight", monster shit!

Do you really wanna see that things that's turning in me?
Turning in me? NO!
I am, I am, I am liberating me, starting to turn
I didn't do it, got something to stir it up
I am, I am, I am liberating me, starting to turn
I couldn't see it, my hatred is filling me
I am, I am, I am liberating me, starting to turn
I didn't do it, got something to stir it up
I am, I am, I am liberating me, starting to turn
I couldn't see it, my hatred is filling me

No!
Wait for it, wait for it!
Driving me crazy when you lie to me baby
You're driving me crazy when you lie to me baby
Driving me crazy when you lie to me baby
Won't die, that's real shady, you might die if you play me!
