

# Stoli Doli

Tech N9ne

Confide sometimes  
You gotta just unwind

Boss mode, everything that cost grows  
Still when the guap flow, girl, you gotta take off loads  
Bingo, when it's cinco, the clocks show, shots go  
Sucio, never no pukin' when I get to shootin' like crossbows  
But before hella shots get thrown back  
Probably get on snacks, then maybe some Cognac  
Nah, the Henny tries to run through many thighs  
Of any size, so maybe Macallan 25?  
Hard to make my mind up  
Need a film quick to unwind us  
In a place where hate won't find us  
Really ease Tech N9ne, girl  
What a glass of good red wine does  
What a really hard day behind us

All the bartenders, they know me, know me (Yeah)  
They know what to give me when I'm movin' really rollie-pollie (Yeah)  
Forgot at first then remembered what JL and Joey told me  
Holy moly, slowly pour me (Stoli Doli)

Do you need me to take off the top?  
Make sure you're good when you're not (Yeah, yeah)  
Do you need me to give it all to you?  
Thirsty, I fill it up for you (Yeah, yeah)  
I could put you on one  
Tell me if you're on one (I'm on one)  
You'll survive (You'll survive), you'll survive  
If you know me, pour me Stoli, {Stoli Doli}

One'll get you feelin' amazin'  
Two'll get you illin' and wavin'  
Willin' is Jason, chillin' is Tavon  
Even if he on four though, please pour more, we scored though  
Liquor is more so, his torso, he's Goro  
Stoli Doli, throw it back and begin again  
Only homies know the capital dinner when  
Show me, brodie, for the facts, show I'm innocent  
Rapper though in it then  
Just gold flexin', future kid, no retrogression  
This a K.C., M.O. blessin'  
When they vyin' for that soul sessions  
Buzzed like a muh  
Get in free, I got the plug  
Got all my people showin' love, ayy  
We party just because  
It was no thing is what it was  
But all of us got no kind of grudge, ayy
