

# We're Not Sorry

Tech N9ne

I put my best foot forward  
I keep my family by my side  
I sleep with one eye open

I'm for real when I say I got an army  
Stand down if you think you can harm me  
Think about the war you'll be starting  
Come for my people, you'll be sorry  
'Cause we're not sorry, we're not sorry  
So think about the war that you'll be starting  
'Cause we're not sorry, we're not sorry

So called Christians, what do they do?  
They label me evil  
Man you don't know just how crazy these people  
So many conspiracies they give 'em hearing me  
Fearing me 'cause they think that I'm the tyranny of Devilry  
Think they planning to level me  
'Cause I'm king of the revelry  
I will never be taken by the hands of another man  
I get grim like no other can  
Christian household my mother ran, in this gutter land  
Then she married a good Muslim brother man  
So I had a hell of a lot of teaching  
We leave sin on the table with the goodness and feasting  
Eating like cannibals we're the animals beasting  
Seeking the enemy who invented these preachings

I put my best foot forward  
I keep my family by my side  
I sleep with one eye open  
Pray you'll stay right by me and my

I'm for real when I say I got an army  
Stand down if you think you can harm me  
Think about the war you'll be starting  
Come for my people, you'll be sorry  
'Cause we're not sorry, we're not sorry  
So think about the war that you'll be starting  
'Cause we're not sorry, we're not sorry

I'ma say this quick  
If you come for me and my family, I'ma spray this clip  
And my army is super ready if you haters trip  
Keep popping off at the mouth, you get inflated lips  
Ain't no Illuminati, don't let the ruckus consume ya body  
I'ma groom the shotty then I'ma aim it at whom is naughty  
With them damning me to hell, planning for me to fail  
Ain't no landing me in cells, abandoning me in jail  
Stop mocking me and my symbols  
Back in the day was bishop, more, and me in the temple  
So if you coming at me I will never be gentle  
You gotta know ya conspiracy theories are mental  
Me and my children bathing that is really essential  
So me just being a rapper is not my only potential  
Was brought up in a war, you can check my credentials  
All you gotta do is tell the homie come at the sinful

They see tenfold

I put my best foot forward  
I keep my family by my side  
I sleep with one eye open  
Pray you'll stay right by me and my

I'm for real when I say I got an army
