

# We Won't Go Quietly

Tech N9ne

Somebody gotta say something, that somebody gonna be me  
People rather have separation than to come together living freely  
All the tragedies we see in the dark streets on the TV  
Make it difficult to grow a glee tree when the love level back in B.C  
We will never see racism done away with on our lifetime  
When the parents hearts filled with hate, reproduce, then it's sending down  
the pipeline  
If their kids want to fight crime, and they talk to others of the right kind  
That'd be terrifying facing nighttime and it's still the only light shined  
Jesus not present when things seem so egregious  
But if we just set aside all our differences and try to ease up  
Off of war with each other please trust we can be just  
When the hating, killings', enough and the anthem will have everybody taking  
knees up

No, we won't go quietly  
All the fear I've got inside will die with me  
We said "Turn this message louder 'till the speakers bleed"  
But we won't go quietly  
And everybody said  
No we won't go quietly  
All the fear I've got inside will die with me  
We said "Turn this message louder 'till the speakers bleed"  
But we won't go quietly

Too many people of power afraid to say things  
Cause they don't want consumers to stop their pay streams  
If they don't agree with your way of thinking they taking  
Your cake cream, no love no life is all that hate brings  
I stand by love so if this don't enhance my buzz  
And the fans die and my blood, the world is ran by thugs  
That just want to bend my blood that runs with an angel flow  
What they bleed ought to be equality, never been the angle though  
But one day soon I want to see the people loving then say "Bravo"  
Cause now I see a lot of killing and fighting like Rocky and Ivan Drago  
All good to be in Cabo, I'm rolling in your mercy alago  
But we just say a prayer if you will to stop the ill drills off up in Chicag  
o  
Please

No, we won't go quietly  
All the fear I've got inside will die with me  
We said "Turn this message louder 'till the speakers bleed"  
But we won't go quietly now  
No we won't go quietly  
All the fear I've got inside will die with me  
We said "Turn this message louder 'till the speakers bleed"  
But we won't go quietly

Wishing we could be rid of all terrorism  
Like it's theorism, for the good I'd say heroism  
We are the dauntless and miss the demons we see in swarms  
So mind your business unless you see somebody being harmed  
I learned to love from my mother  
I feel an angel around me, I know she hovers  
Impatiently waiting for you to discover that people all need each other  
When you see me, I'll call you brother

Never mattered whatever color

No, we won't go quietly  
All the fear I've got inside will die with me  
We said "Turn this message louder 'till the speakers bleed"  
But we won't go quietly  
And everybody said  
No we won't go quietly  
All the fear I've got inside will die with me  
We said "Turn this message louder 'till the speakers bleed"  
But we won't go quietly  
And everybody said  
No we won't go quietly  
And everybody said  
No we won't go quietly  
No we won't go quietly

If we didn't fear each other, we could stand near each other
