

WHAT RHYMES WITH THREAT'LL KILL YA

Tech N9ne

Go away stranger, go away stranger
Go away stranger
Please go away you stranger
If you're twisted down low
Should you hit this town? No
Bring your sickness 'round
We will get you, hey!

Make em feel a shaken chill
Cause of ache and real
Great until Satan's will ate and killed
On a broken wheel
They can still rape and spill nathin' ill
Shapen steel to a steak and drill
Taken grill, Haitian pill
I'ma hit 'em with a severe level of capital punishment
With a weary devil packing your gun as it to the fearful
I'm gonna have to go hundred clip
Wad this bro, son his shit, bad this hoe, plummeted
'Nough to gag me, thinking of the way you love the shag
Tear his anus with a big pair of anguish up his ass

I've been hellbent to get em all tied up
And through his urethra the nail went
I am making an iron maiden
His fate is derailment for gail mints
You wanna know the thing this'll get you
Impalement

What rhymes with threat'll kill ya

What rhymes with threat'll kill ya
I don't know why you're so hostile
Impossible, rhyme is inaudible, I-

Captured now you're my prisoners
Gagged and bound, they'll be no visitors
Within these perimeters
Soldiers smile for the exhibitors
Ah me, fuck your bag and bend a knee, plea
No mercy from me, this P-H-L-A-Q-U-E
This is blasphemy, disaster follows after me
Ravage you so savagely
Automatically bringing catastrophic tragedy
Double N, U, double T, Howze
Massacres we found
Fires when the gasoline starts
I don't think you want this gathering out
Nothing but the highest point of joy for this red
I mean mouse
Like Lecter, my slaughter's a trifacta
I'm a bone collector
Lead to the head connect us
Rip you or dissect ya
Grimstress be the sickest
I'm twisted and sadistic

When I spit these characteristics
You wanna hitlist or dismiss fit
(Grimstress out)

Welcome to the dungeon
You get bashed, you get bludgeoned
Or someone from the gunmen
We got gas, we got poison
For your past offenses
We elect from vast and senseless
The electroshock'll rock ya top
Nothing you can rob when we past the sentence
Erratic behavior is nothing acidic
I stretch organisms on the table
From beginning to feeling a killing
Kick in the adrenaline, Val I'm pillaging
(Get the guillotine)
Sick in a cell, withering
No pale with an L like clean
The fiend where it crawled that
See put him in a pit
Let her be the casket and the worms ain't shit
Can you imagine a bastion
When I'm thrashing, slashing
Separating in fashion
Smothering is flashing
But I'm laughing stabbing
Revenge is so maddening
What makes me wanna snap with the click-clack
Embrace the nirvana when it's pitch black
A little taste of torture, can't escape this scorcher
When you're face to face like Travolta
With guests

Twisted is this vicious monster
You don't want this sick shit on ya
We get bitch, come get this drama
Fuck with the nuts, we put you in the dust
