

# When Demons Come

Tech N9ne

These days I don't know how I feel  
Trying to find anything that's real  
In a world where everyone says God is your name  
You can really lose sight because everything feels right  
But in the middle of the night people hate to dislike and they  
come in with a fight  
Will you bang when demons come?

When the darkness grabs your hand  
Lead you to the sin  
It'll take you down its blackened hallways  
Please don't be afraid  
Come and speak my name and I will take you in like always

All the kids stay inside  
Yeah, the Angels  
Gonna bleed then divine disguise  
Yeah, their soul is an angels prize  
Yeah, we never gonna let em get us  
Gonna get em let up, so the evil demon devil they better run an  
d HIDE! (hide, hide, hide)

When the darkness grabs your hand  
Lead you to the sin  
It'll take you down its blackened hallways  
Please don't be afraid  
Come and speak my name and I will take you in like always
