

Bound and Gagged

Ted Nugent

Take a look at the situation
I don't believe in negotiations
You would think they would back up you and me
So if you're proud of this great nation
We got to have us a confrontation
That's the only hope that we'll stay free

We should never stay bound and gagged
We will never stay bound and gagged

Take a look at the constitution
We must amend us some retribution
Had how the hell did they take our embassy
We should had armed guards up and down the stairways
Fighter jets flying through the air ways
That would guarantee that we'll stay free

And if we don't we will stay bound and gagged
We should never stay bound and gagged

Got to face those consequences
It's time to strengthen our defenses
Gotta tell 'em right now that we are still tough
Ah the fascinations they just stopped the border
And all they know is law and disorder
Now's the time just scream we've had enough

There's no way we will stay bound and gagged
Bound and gagged
We refuse to stay bound and gagged
Bound and gagged

You see we've always been there to pick up the pieces
We make all the sacrifices and what do we get in return?
You think they'd show us a little respect, wouldn't you? Wouldn't you
?
But you know they take us busted today
They kidnap our leaders they kill our advisers
They burn our flag
Now just who the hell do they think they are?
Who are they think they messing with anyhow? Just who
I think we've had enough yeah
I think we're fed up with all that shit
We have had enough we refuse to stay
Other way where the U.S.A
We would never never never stay
And no way and no way and no no no no no way
Mine is right and who will win the fight?
